Re: Request to Discharge Stored Storm Water  
from 3655 Trousdale Drive,  
Nashville, Tennessee (John P. Saad)

Dear Mr. Cowan:

We are in receipt of the proposal and laboratory analysis from your engineers, Resource Consultants, Brentwood, Tennessee, relative to the discharge of collected storm water to the Publicly Owned Treatment Works.

We are granting you a batch discharge permit for the discharge of one hundred ten thousand (110,000) gallons of collected storm water with the following conditions:

1. Each batch shall constitute a separate and distinct discharge.
2. Discharge shall be through temporary piping to a sewer appurtenance.
3. Discharge may occur between 8:00 A.M. to 4:00 P.M. during normal working days. Notification must be given prior to the discharge.
4. Each additional discharge shall be requested in writing and must have written approval from the Department of Water and Sewerage Services prior to discharge.
5. The approved discharge shall be concurrent drainage for each tank, not to exceed fifty (50) gallons per minute.

Donald Cowan and Associates

6. During the discharge, a responsible member of Cowan and Associates shall personally examine the discharge at thirty (30) minute intervals and in a permanent log book record the following information:
  1. Date
  2. Time
  3. Name of Witness
  4. Flow
  5. Comments/Notes on color, odor, etc.
7. During the discharge, a responsible member of your engineering firm shall personally visit the site twice daily, visually inspect the discharge, take grab samples for retention, record flow data, etc., in the permanent log book.
8. The applicable sewerage fees and surcharges at the current rates shall apply and be paid within thirty (30) days of the discharge.

Should you have any questions concerning this matter, please contact Mr. Robert N. Carnahan, By calling 259-7291.

Sincerely,

  
Gene A. Johnson  
Assistant Director/Operations
